SUMMARY:
As a software development intern at ALpath Tech you will be responsible for all aspects of the software development – from feature design, architecture, implementation, and testing to deployment, monitoring, and diagnostics. You should be passionate about building scalable software that is easy and fun to use.

COMPETENCIES:
- Experience with iOS/Android application development
- Experience with React-native
- Strong Computer Science fundamentals
- Coding practices including unit testing and integration testing
- Be a team player and support the needs of the team
- Solid problem solving and troubleshooting skills
- Ability to multi-task and prioritize projects
- Communication skills for a highly collaborative software development process

EDUCATION:
- Bachelor’s degree in Computer Science, Computer Engineering, or related technical discipline
- A related Master’s degree is a plus

HOW TO APPLY:
- Send your resume to general@alpathtech.com
