HuskyADAPT REU
Research Experience for Undergraduates
Summer 2018

Are you interested in collaborating with local individuals with disabilities and the communities that support them to identify and coordinate design challenges?

We are looking for a driven, organized, innovative student to lead a design and research effort this summer! The student will be responsible for working with the HuskyADAPT leadership team to (1) meet with and organize the team of need experts who will work with student-run design teams next year, (2) brainstorm and scope design challenges for 2018-2019 HuskyADAPT teams, (3) update the website and other supporting documentation, and (4) work on current HuskyADAPT design challenges. Summer REU students receive a $5000 stipend and are expected to work 40 hours/week for 10 weeks.

Position Requirements:
• University of Washington undergraduate in engineering or industrial design
• Excellent written and verbal communication skills and be able to communicate with multidisciplinary teams including need experts, families, therapists, engineers, and designers.
• Experienced working on design teams.
• Detail-oriented and organized.
• Design and prototyping experience.
• Please see the HuskyADAPT website for more information: https://depts.washington.edu/adaptuw/

Include in application email (as PDFs):
• Cover Letter – detail why you are interested in this position and other relevant background
• Resume
• Unofficial Transcript
• Contact information (phone/e-mail) for two references

Please send application documents to: Keshia Peters (rumbek@uw.edu) by March 2nd, 2018
